The sponsorship arrangement covers the period between the start of the 2008 Formula One Racing Season and the end of the 2010 Formula One Racing Season. The sponsorship of alloy wheels to this F1 team is part of the Group's strategy to enhance its global branding and forge ahead with its global expansion plans. It is also a key highlight for the Group's 60th Anniversary celebrations.

In the meantime, the Group continues to report another profitable year in FY2007.

Net profit attributable to equity holders for FY2007 was S\$26.3 million while turnover grew 13.8% to reach S\$426.9 million.

Excluding the negative goodwill effect of S\$5.4 million in FY2006, the Group's net profit attributable to equity holders would have been S\$4.2 million (or 19.0%) more in FY2007 compared to FY2006. The negative goodwill arose from the acquisition of its associate company OZ S.p.A. in FY2006.

Turnover for the manufacturing business segment increased by about S\$41.2 million or 36.9% from S\$111.6 million in FY2006 to S\$152.8 million in FY2007, primarily due to higher output from additional production capacity in Suzhou, PRC. Turnover from the distribution business segment went up by about S\$10.5 million or 4.0% from S\$263.6 million in FY2006 to S\$274.1 million in FY2007, driven by stronger sales in ASEAN and Oceanic operations.

On the Group's performance and outlook, YHI's Group Managing Director, Mr. Richard Tay said: "This year is the Group's 60th anniversary since our establishment in 1948. We believe that the successful sponsorship of alloy wheels to Scuderia Toro Rosso F1 team is in line with our overall globalization strategy as we believe it will help promote our corporate global image in the premium league for automotive accessories. We would also like to take the opportunity to build global brand equity for our own proprietary brands, "Advanti Racing" and to enhance our market share in the multi-billion dollar global automotive accessories market."

GOING FORWARD
